Goal-oriented professional committed to creating a positive experience in interacting with customers. Dedicated team player skilled at communication and conflict resolution. Looking to transfer those skills and training from DigitalCrafts to a positive work environment where the passion for software development can be fully developed to pursue long-term goals and aspirations.

## Software Development Skills

- HTML, CSS, Bootstrap, JavaScript, JQuery, Node.js, React, Express, RESTful API, PostgreSQL, Sequelize, Python

## Education

DigitalCrafts | Certificate in Full Stack Web Development | Houston, Tx January 2021 - May 2021

- Software engineering training program covering full-stack development including, but not limited to JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

## Software Development Portfolio

**Alpha Music** | <https://github.com/tylerhobbs94/front-end-project> February 2021

- Alpha Music was created for the user to be able to look at top hits, information about the artist, lyrics for their favorite song and ways to search albums by a certain artist.
- Primary responsibility was to use HTML, CSS, Javascript, and JQuery to create the lyrics page for the site and to implement the lyrics API allowing the user to see the lyrics of the song they chose.

**HealthierU** | <https://github.com/jrluecke95/healthierU> March 2021

- HealthierU was created for coaches and athletes to communicate outside of the gym. HealthierU allows a coach to be able to assign workouts and recipes for meals to their athletes to allow them to be at their peak level of fitness.
- Primary responsibility was to work in collaboration with a teammate to create the back end for the program. This involved using Node.js, Express, and PostgreSQL. to create the backend to create log-ins, registered routes, a database with 3 tables linked to id's, and the creation of routes which allowed clients to select their own coach, and allow coaches to assign workouts to their clients.
